B-340 SA

IM "XL" Cube
Extra Large approx. 31 g
Size code: -23

The "XL" Cube provides (when compared to same weight but different shape ice):

- minimum air/water ratio
- minimum temperature (sub-freezing)
- minimum heat exchange surface
- lowest flavour dilution
- longest chill
- maximized repeat business

Powered by R290 Natural Refrigerant, energy efficient and sustainable, with a GWP = 3. Energy savings may vary depending on electrical specs when compared to HFC equivalent model.

SERIES: MODULAR ICE MAKER
 ITEM: M071-D105

FEATURES:

- Modular cube ice maker, powered by Natural Refrigerant R290.
- Horizontal evaporator, with water injection.
- Air cooled condenser.
- Dimensions: 1084 x 700 x 500 mm.
- Produces high density, slow melting, geometrically pure (cubic) Extra Large – XL ice cubes (32x32x32mm, approx.31 g), at sub-cooled temperature.
- Up to 190 kg of ice produced per 24 hours (approx. 5,940 ice cubes per day).
- Closed water circuit for airborne bacterial cross-contamination protection. Evaporator and water circuit easily reachable for manual cleaning and sanitation.
- Electronic control board, with optimized ice making process irrespective of ambient temperature, varies quantity of water rinse after each production cycle, accommodating local water quality conditions.
- Magnetically-driven water pump.
- Front-panel installed air-louvers, with dust-collecting filter, easily removable for regular manual cleaning.
- Stackable, and supplied without top-panel. Must be installed in conjunction with IM 240 DNE model to form a complete set. Double or triple machine columns (model IM 240 DNE must be the top unit of the stack).
- Stacked units pass-through ice funnel supplied as standard. Ice level control system to be connected to bottom unit of the stack.
- Matching storage bin sold separately.

COMMERCIAL WARRANTY AGAINST MANUFACTURING DEFECTS

EXTERIOR FINISH

Stainless Steel

Refrigerant: R290

OPERATING CONDITIONS LIMITATIONS

- Ambient Temperature Range: 1 °C / 40 °C
- Water temperature Range: 5 °C / 35 °C
- Water Supply Pressure: 0,7 bar min. / 8 bar max.
- Voltage Range: 198V - 254V
